Gender Aspects of Mathematics: History, Disciplinary Culture, Research Contents

Dienstag, 13. Mai 2025 • 14:15 Uhr

Seminarraum SE41 • Humboldt-Bau (Emil-Fischer-Straße 41, 97074 Würzburg)

Der Vortrag wird auch als Zoom-Meeting übertragen: go.uni-wue.de/ifmcolloquium-zoom

Abstract. In my talk, I will consider women in mathematics both in history and today. I will address the question of how mathematics may be viewed as a gendered discipline. Is there such a concept as 'female mathematics'? I will examine the current disciplinary culture within mathematics and what it means to become a mathematician. Additionally, I will provide some best practice examples aimed at encouraging more women to pursue research careers in mathematics.
