Fall School 2019

Julius-Maximilians-Universität
Würzburg
Bavaria • Germany

September 23 – 25, 2019

Foto: S. Korbl

Quasi-Variational Inequalities: Theory, Algorithms, and Applications

Jong-Shi Pang University of Southern California, USA
Generalized Nash-Equilibrium Problems in Finite Dimensions

Carlos N. Rautenberg Humboldt-Universität zu Berlin, Germany
Introduction to Quasi-Variational Inequalities in Hilbert Spaces

Hasnaa Zidani ENSTA ParisTech, France
Optimal Control and Hamilton-Jacobi-Bellman Equations

Scientific organizers:
Christian Kanzow, University of Würzburg
Daniel Wachsmuth, University of Würzburg
