

Im Oberseminar

Deformationsquantisierung

spricht am **27 April 2018 um 14 Uhr c.t.**,

im Seminarraum 00.009 (Physik Ost)

CHIARA ESPOSITO

über das Thema:

Quantum momentum map: a beta version

In this talk I will present new results concerning the quantization of momentum map obtained by using the UDF approach proposed by Drinfeld. This opens many new questions that will be further discussed. Finally, we cry all together for my departure.
